

Key Performance Indicators	Year 7 Milestones - Geography
Location Knowledge	I can use my inquisitive skills to have a more in depth awareness of the location of world's countries.
	I can identify key physical characteristics of countries within the continent of Africa.
	I can identify key human characteristics of countries within the continent of Africa.
	I can use case studies to create a deepened focus on geographical aspects of a different countries.
	I can name and locate countries being studied.
Place Knowledge	I can describe and explain the physical processes of how coastal landforms occur.
	I can describe and explain the physical processes of how glacial landforms occur.
	I can describe the physical process within hydrology and coasts.
	I can understand the geographical similarities and differences through the study of human and physical geography of a region within a country. I can discuss how some people are dependent on tourism within certain countries.
	I can speculate, identify and then justify how physical features affect the human activity within Africa.
I can use case-studies to describe the key processes in physical geography relating to: geographical timescales, including the change in climate from the ice age to the present. I can also create accurate and appropriate graphs.	
Geographical Skills and Fieldwork	I can draw diagrams in order to describe the way in which plate-tectonics function.
	I can describe the main different rock types that can be found.
	I can identify and describe different climate types found worldwide.
	I can use case-studies to describe different weather types found throughout the world.
	I can build on my knowledge of globes and atlases and use them routinely in the classroom.
	I can analyse and draw conclusions from geographic data found in fieldwork and received through a secondary source.
	I can interpret OS Map symbols and apply them within geographic work.
	I can create maps of locations identifying patterns of relevance.
